

# ENTRY ROUTES

## Do you have what we are looking for?

Graduate? Already in work? School leaver? For ACCA, it's the end result that counts. Just one of the reasons ACCA prides itself on providing opportunities based on ability and application. Irrespective of your academic qualifications or location in the world, ACCA can provide you with the right starting point to embark on a route to becoming qualified. We'll equip you with a qualification that employers worldwide respect, and the skills which will help ensure you are fit for business.

## Your starting point

It might look daunting. But remember that your academic achievements will be taken into consideration. And if they are highly relevant to the ACCA Qualification, you could gain an advanced entry point and accelerated progression through to membership. In fact, of the 14 exams, up to nine are eligible for exemption. Similarly, your practical experience to date may count towards ACCA's practical experience requirement.

\* May be exempt from all nine papers in the Fundamentals level

\*\* May be exempt from some papers in the Fundamentals level

BSc  
(OXFORD BROOKES UNIVERSITY)

MBA  
(OXFORD BROOKES UNIVERSITY)
